

August 3, 2016

To whom it may concern:

This letter confirms that A-LIGN conducted a Type 2 SSAE 16 examination of the Title Insurance and Settlement Services for Waco Title Company ('Waco') in accordance with American Land Title Association (ALTA) Best Practices System at its Arkansas and Missouri Title Office locations.

The examination of Waco's description of the system for the Title Insurance and Settlement Services in accordance with ALTA Best Practices were performed to determine whether or not, in all material respects and based upon suitable criteria:

- the description fairly presents the system that was designed and implemented for the period January 1, 2016 through March 31, 2016.
- the controls related to the control objectives stated in the description were suitably designed to provide reasonable assurance that the control objectives would be achieved if the controls operated effectively for the period January 1, 2016 through March 31, 2016 and user entities applied the complementary user entity controls contemplated in the design of WACO's controls for the period January 1, 2016 through March 31, 2016.
- the controls tested, which together with the complementary user entity controls referred to in the scope paragraph of this report, if operating effectively, were those necessary to provide reasonable assurance that the control objectives stated in the description were achieved, operated effectively for the period January 1, 2016 through March 31, 2016.

The review period for the engagement was January 1, 2016 through March 31, 2016 with an unqualified audit opinion.

Regards,

Scott G. Price
